Specifications

SWIMCLOCK / SWIMCOUNT

- Case size: 12.5" x 24" x 4", 17 pounds (with battery, 32 lbs)
- 110V to 24 VAC wall transformer (24VAC rechargeable battery optional).
- Four digit display (+ colon) 6.5" red Light Emitting Diodes on black background (high intensity LED's for outdoor).
- Black anodized aluminum case. Non-glare Plexiglas lens. Splashproof.

Programming Pendant (sold with SWIMCLOCK or add to SWIMCOUNT)

- Case size: 7.5" x 4" x 1.2", .6 pounds.
- 16-key splashproof membrane keypad with 4 x 16 backlit alphanumeric LCD.
- Black impact-resistant ABS plastic case.
- Program and save 30 sets with 5 intervals to repeat up to 99 times. Count up or down selectable.
- Program and save 15 Workouts with 30 sets each and up to 99 send-off tones at selectable interval.

SHOTCLOCK

- Case size: 12.5" x 24" x 4", 10 pounds.
- 110V AC power cord.
- Two digit display, 6.5" red Light Emitting Diodes on black background.
- Black anodized aluminum case. Non-glare Plexiglas lens. Splashproof.

SWIMCLOCK provides unparalleled flexibility and control over workouts. SWIMCLOCK uses a dependable, readable LED display, with four bright 6.5 inch numbers in a rugged aluminum case with Plexiglas lens. The hand-held programming pendant includes a 16-key keypad and backlit LCD display. Available with or without battery, indoor or outdoor LED's.

Use the Programming Pendant to create 30 sets, with five different intervals. Select to count up or down, and number of reps to run. Sets begin with 3 warning tones, then a tone for each new rep. Program multiple send-off tones to sound at a selectable interval. Save all sets in memory by number.

Create up to 15 workouts with up to 30 sets each. Save in memory to reuse, edit, or delete and replace. While running a workout, the coach can start, stop and restart, or reset the whole workout at any time.

Use E-Z Workout to program 1 interval and the number of reps. Also includes GAME CLOCK and STOPWATCH modes. Link multiple SWIMCLOCK's together to run synchronously from one Programming Pendant.

SWIMCOUNT is an affordable continuous counting 4 digit pace clock or water polo game clock without a Programming Pendant. Add the Pendant later. Combine a SWIMCOUNT with a SWIMCLOCK for synchronous operation. Available with or without battery, indoor or outdoor LED's.

SHOTCLOCK is a very affordable continuous counting 2 digit pace clock or water polo shot clock. Same rugged aluminum case and Plexiglas lens. Use on deck or hang on wall. Available for indoor use, 110V AC powered only.
