International Sports Timing
MEETWARE, TIMEWARE, WORKWARE
POLOWARE or BOARDWARE
<u>Computer Requirements</u>

<u>TIMING COMPUTER</u>
1. IBM Compatible computer with Pentium (or equivalent) processor
2. Windows 7, 8 or 10. Where available, PRO version is recommended for networking
3. 64 MB of RAM minimum recommended
4. 20 MB hard disk space available
5. VGA or Super VGA monitor
6. CD drive and/or USB flash drive
7. Mouse
8. One available USB Port for the Computer Timing Interface.
9. For Polo Interfaces and older Computer Timing Interfaces that use serial cables, a 9 pin serial port is required. If no serial port is available, a USB to Serial adapter cable can be purchased. It must be compatible with the Windows version in use. The adapter cable will come with driver software that must be installed per the manufacturer's instructions.
10. If linking to Hy-Tek's MEET MANAGER via network connection, both the timing computer and MEET MANAGER computers must have the appropriate network hardware, along with the required cables or wireless to connect the two computers.

<u>PRINTER</u>
1. Any printer that is compatible with the Windows version in use. *Note that some ink-jet printer ink will run if it gets wet.*

<u>POWER REQUIREMENTS</u>
1. All timing devices, scoreboards and all computers running IST's software **must** be connected to GFI (Ground Fault Interrupt) 110V 15 amp (min.) outlets.

<u>RECOMMENDED EQUIPMENT</u>
1. We strongly recommend that the computers, printers and the Computer Timing Interface be connected to power through an uninterruptible power supply (UPS). This protects against accidental loss of data during a power failure.
2. The addition of an internet connection to your computer will enable you to download updates from or email backups to IST with minimum effort. We can also connect directly to the computer over the internet to provide online assistance.

If the above equipment is not readily available, IST will be happy to help you put together a package that will suit your needs. For more information, email info@istime.com, call 800/835-2611 or fax 616/247-0086.
